Chapter Monthly Meeting: Second Friday of the month at 7:30 PM

Breakfast Fly-in: Third Sunday April through October

President's Message (well, a message from Gerry Scampoli)

Guys,

Boy, am I excited about the prospects for EAA 279 in 2014. First there is the Sonex project, then the beginning of the preparations for the Fly-In season.

We have a new slate of officers with a fresh new outlook on life and we seem to be on the right course.

We're planning on getting a new (and much more energy efficient) freezer for food storage and we're looking at new ways to procure the food items needed to make the season successful AND easier. With any luck, that chore will be a **lot** easier.

I hope to see you at the monthly meeting this Friday. And, if you can please bring your dues for this year to the January meeting, it would help a lot. The 2014 dues are due January 1, and last year I was collecting dues as late as August. Early dues collections will help pay for the "stuff" that is being planned.

Gerry Scampoli

December Meeting Minutes

The Secretary's and Treasurer's reports were accepted. It is believed that we have sufficient money to get through the first fly-in. The Sonex project was reviewed and is going well. There was an issue with the club house heater as the air filter was clogged. Tom Hassie and Gerry Scampoli replaced it; the heater now runs well. There was a review of the Ham Radio course, and problems with regular attendance making it difficult. Old business updates were provided regarding recycling the old refrigerator, covering the cloth hanger, trash pickups, and toilet supplies.

New business; Joe Fava announced the change in leadership for the new year, and presented the EAA awards for the previous year.

Membership dues are due.

Paul Paquin, Secretary

This time of year the ground can be pretty soft. Please keep non-flying vehicles off the grass as much as possible

Sonex

We got together a few weekends ago in Brian's hangar to inventory the Sonex kit. It does look a lot like the picture. The quality of the kit is quite impressive. The number of parts is a little daunting but it should be a lot of fun to put together.
